

Township of Washington, Westmoreland County
Board of Supervisors' Regular Meeting
Agenda
April 9, 2026

1. Call To Order
2. Pledge of Allegiance
3. Agenda Items Discussion
4. Announcements
 - a. The Spring Clean-Up Dumpster Day will be held Saturday May 2, 2026 from 7 a.m. to 5 p.m. at the Township's Maintenance Garage at 3788 Route 66.
 - b. At the duly advertised Agenda Meeting on April 6th, bids were opened and read for the 2026 Seal Coat Project, 2026 Paving Project, and the 2026 Dumpster bids for the Spring Clean-Up Day. All bid tabulations are attached.
5. Motions
 - a. Accept Minutes of Regular Meeting of 3/12/2026
 - b. Accept Treasurer's Report for March
 - c. Accept Police Department Report for March
 - d. Accept Road Department Report for March
 - e. Accept Fire Department Report for March
 - f. Accept Emergency Medical Services Report for March
 - g. Accept Emergency Management Coordinator's Report for March
 - h. Accept Engineer's Report for March
 - i. Pay bills as presented
 - j. Award the contract for the 2026 Seal Coat Project to Midland Asphalt Materials Inc., the lowest bidder
 - k. Award the contract for the 2026 Paving Project to Tresco Paving Corporation, the lowest bidder
 - l. Award the contract for the 2026 Dumpster to McCutcheon Enterprises, the lowest bidder
 - m. Approve the hiring of Dylan Keffer as a full-time Patrol Officer and K-9 Officer Dirk as of 03/23/2026
 - n. Approve the hiring of Travis Shearer and Jaden Dunmire as Seasonal Road Workers effective May 2, 2026
 - o. Authorize the Public Works Director to purchase a new Ford F-600 heavy-duty truck through the Co-Stars program
 - p. Accept the resignation of Patrolman Brian Bartrug as of April 30, 2026
 - q. Authorize Chief Montgomery to hire a full time Patrolman
6. New Business
 - a. Swear in Dylan Keffer as a full-time Patrol Officer and K-9 Officer Dirk
 - b. Presentation by District Attorney Nicole Ziccarelli
7. Subdivisions/Land Use
 - a. Rhino Storage – Self-Storage Units – Hancock Avenue
8. Unfinished Business
9. Public Comment
10. Adjournment

**This meeting is recorded to assist the Secretary with the Minutes **

Minutes
Supervisors' Meeting
March 12, 2026

The Board of Supervisors of Washington Township, Westmoreland County, met in Regular Session at 7:00 p.m., at the Municipal Building on February 12, 2026. Present were Supervisors Olszewski and Thornton, as well as Solicitor Jed Price of Long & Long and T.J. Stephens of Bankson Engineers, Inc. Excused absence Gardner. The meeting was called to order by Vice-Chairman Olszewski and opened with the Pledge of Allegiance.

Hearing no request for discussion on any items on the agenda, Olszewski announced the following: The Township office will be closed on Friday, April 3, 2026, in observance of Good Friday and at the duly advertised Agenda Meeting on March 9, 2026, bids were opened and read for the 2026 Grass Cutting contract for the Municipal Building/Kunkle Park and Crestview ballfield.

Olszewski then continued with the motions.

Thornton motioned and Olszewski gave the second to accept the Minutes of the duly advertised regularly scheduled Supervisors' Meeting of 02/12/2026. All voted in favor.

Thornton motioned and Olszewski gave the second to accept the Treasurer's Report for February. All voted in favor.

Thornton motioned and Olszewski gave the second to accept the Police Department Report for February. All voted in favor.

Thornton motioned and Olszewski gave the second to accept the Road Department Report for February. All voted in favor.

Thornton motioned and Olszewski gave the second to accept the Fire Department Report for February. All voted in favor.

Thornton motioned and Olszewski gave the second to accept the Emergency Medical Services Report for February. All voted in favor.

Thornton motioned and Olszewski gave the second to accept the Emergency Management Coordinator's Report for February. All voted in favor.

Thornton motioned and February gave the second to accept the Engineer's Report for February. All voted in favor.

Thornton motioned and Olszewski gave the second to pay bills as presented. All voted in favor.

Thornton motioned and Olszewski gave the second to accept the resignation of Patrolman Jarred Kier as of February 28, 2026. All voted in favor.

Thornton motioned and Olszewski gave the second to authorize Chief Montgomery to hire a full time Patrolman. All voted in favor.

Thornton motioned and Olszewski gave the second to adopt Resolution 2026-02 to enter into an agreement with Westmoreland County District Attorney's Office for the distribution of \$7,040.00 to Washington Township for the purchase of five (5) AR—15 patrol rifles. All voted in favor.

Thornton motioned and Olszewski gave the second to adopt Resolution 2026-03 adopting the Westmoreland County 2025 Hazard Mitigation Plan. All voted in favor.

Thornton motioned and Olszewski gave the second to adopt Resolution 2026-04 adopting the Pollution Reduction Plan Amendment. All voted in favor.

Thornton motioned and Olszewski gave the second to adopt Ordinance 179 regulating skill-based gaming devices. All voted in favor.

Thornton motioned and Olszewski gave the second to award the contract for the 2026 grass cutting of Kunkle Park/Township Building at \$410.00/cut and the Crestview ball field at \$75.00/cut to Karpinski Lawn Care, the lowest bidder. See attached bid tabulations. All voted in favor.

Thornton motioned and Olszewski gave the second to authorize Secretary to advertise the 2026 Seal Coat and Paving Projects. All voted in favor.

Thornton motioned and Olszewski gave the second to authorize Secretary to call for dumpster bids for the 2026 Spring Clean-Up Dumpster Day to be held on Saturday, May 2nd. All voted in favor.

New Business

Geoff Treichler representing the Kiski Area Youth Network, requested the use of Kunkle Park for their annual Turkey Trot on November 26, 2026. Olszewski stated that this will be the 13th year for the Turkey Trot and the organization has also been good stewards of the Park. Hearing no questions, Olszewski motioned and Thornton gave the second to approve the request of Geoff Treichler for the use of Kunkle Park for the 13th annual KAYN Turkey Trot on Thursday, November 26, 2026, contingent on the following: submitting a completed park rental application with a \$200.00 rental fee and a \$150.00 refundable security deposit which guarantees that all requirements of the rental application are met and that the Park will be left as they found it; approval from PennDOT for the closure of Pine Run Road; coordination with Township personal to review traffic control, parking requirements and placement of required port a johns; all trash is to be placed into the dumpster and bags replaced; and a receipt of a certificate of insurance naming Washington Township as the certificate holder. All voted in favor.

Subdivision and Land

Tom Hewitt from Elevated Consulting Services, presented Barndon Wolfe's Plan to construct a 1,500 sq ft garage for storage of equipment for his excavation business, no customers would be on-site, and a rain garden is proposed for stormwater management. Olszewski proceeded to read the Planning Department's recommendation.

Brandon Wolfe is requesting to construct a 1,500 sq ft non-residential garage, with a 50'x 12' overhang and gravel pad on Tax Map #63-15-00-0-071, a 9.938-acre parcel on Greensburg Road for the purpose of an office, storage, and staging area for equipment and supplies for his excavating business, Rino Excavation. No retail activities or customers will be on-site. The garage will be set back approximately 25' from the front building setback line and approximately 70' to the nearest side or rear property line as shown on the Site Plan submitted by Elevated Consulting Services. A rain garden is proposed for stormwater management for both the garage and gravel pad. The wooded lot will only be cleared to complete the land development activities, and a tree line buffer will remain around the development. Well water and public sewer facilities will be connected to the garage. A sewage easement on the neighboring property to the east is proposed for a sewage force main connection to the MAWT public sewage line. A design analysis for the grinder pump and force main has been completed by Environment One Corporation. A highway occupancy permit has been applied for from PennDOT, application # 398314, and the scoping meeting has been completed. The Planning Department recommends approval of the proposed non-residential garage with the following conditions: No site development may commence until the HOP is issued by PennDOT; no site development may commence until a Township Grading Permit is issued; site development shall be completed as shown on the Plan submitted by Elevated Consulting Services; stormwater best management practices must be completed as shown on the site plan; outside lighting must be facing downward and inward; the surroundings of the property must be kept free of

unused material and garbage; compliance with the noise standards in Ordinance 174 must be maintained at all times; all applicable fees must be paid to the Municipal Authority of Washington Township for public sewage, and the force main connection must be installed per the specifications of the MAWT and inspected by the MAWT; no construction of the sewer force main or construction of the garage may begin until the easement agreement for the sewer line is executed and recorded; no sewage facilities planning module is required as the lot was included in the Pucketa Creek sewer project; no construction of the garage may commence until a UCC Building Permit is issued, and no occupancy of the garage may occur until a UCC Occupancy Permit is issued; and any changes to the currently proposed condition of the property such as the addition of signage, additional buildings, or fencing must be presented to the Planning Department for review and Board of Supervisors for approval.

Thornton questioned what the status of the HOP was. Hewitt responded that it is still pending. They submitted for a scoping meeting, and it was determined that a traffic study was not required and the driveway permit application has been submitted. Thornton additionally questioned what the status of the sewage easement was. Hewitt stated that they received a draft easement from their attorney and will be meeting with the property owner who has already agreed to the easement to review the agreement. Thornton questioned if the easement contemplates just the one building. Hewitt replied that the line is sized to connect three buildings or more and the easement agreement includes any future use and the easement would still be valid. Engineer Stephens stated that the only outstanding item from their review comments is for infiltration testing for their stormwater plan. Once the field testing is completed, he will review the test results and provide comments if any updates will be required to the stormwater calculations. Hewitt stated that the test will be completed in the next few weeks as the weather breaks.

Hearing no further questions, Olszewski and Thornton gave the second to approve the request of Brandon Wolfe to erect a 1,500 sq ft non-residential garage, with a 50' x12' overhang at his property along Greensburg Road, Tax Map #63-15-00-0-071, contingent on the following: No site development may begin until a PennDOT HOP has been issued; no site development may begin until a Washington Township Grading Permit has been issued; all site development must be completed as shown on the Plan submitted by Elevated Consulting Services; stormwater best management practices must be completed as shown on the Plan; all outside lighting must be facing downward and inward; the property must be kept free of unused material and garbage; compliance with the noise standards in Ordinance 174 must be met at all times; no customers will be onsite; the force main connection must be installed per the specification of the MAWT and inspected by the MAWT; all applicable tapping fees must be paid to the MAWT; no construction of the force main or the building may begin until the easement agreement for the sewer line is executed and recorded; no construction of the garage may begin until a UCC Building Permit is issued and no occupancy of the garage may occur until a UCC Occupancy Permit has been issued; any changes to the currently proposed condition of the property such as signage, additional building, lighting or fencing must be presented to the Washington Township Planning Department for review and the Board of Supervisors for approval. All voted in favor.

The Mochans are requesting to combine Lot 2, Tax Map #63-11-00-0-509, a 1.509-acre improved lot serviced by a water well and public sewage, with Lot 3, Tax Map #63-11-00-0-510, a 1.795-acre unimproved lot. The purpose is to consolidate lots 2 and 3 from the Deem's Plan of Lots Subdivision into a single lot, which will be 3.304-acres. The Planning Department recommends approval of the Mochan Lot Consolidation Plan contingent upon creating a lot identifier for the consolidated parcel and correcting the 30' setback line on Lot 3 to be 30' from the edge of the 50' private road right of way. No comments were received from the Westmoreland County Planning Department's review.

Engineer Stephens commented that the surveyor's seal and signature need to be on the revised Plan when it is submitted to the Township for signature.

Hearing no further questions, Olszewski motioned, and Thornton gave the second to approve the Mochan Lot Consolidation on Apple Drive contingent upon a lot identifier being created for the new parcel and correcting the front setback line on the drawing for Lot 3 to show 30' from the private road right of way. All voted in favor.

Mark and Patricia Dickun are requesting to subdivide a 5.660-acre lot, Tax Map #63-07-14-0-001, into 2 lots. The purpose of the Plan is to create a new building lot. Lot 1 will be 3.708-acres containing a residential dwelling and pool house serviced by public water and public sewage. Lot 2 will be a 1.952-acre vacant lot. Access to Lot 2 will be from Meadow Highlands Drive and will have access to public water and public sewage. Mr. Dickun stated that a sewer wye connection was previously installed in the section of sewer line on proposed Lot 2 when the Chapeldale development was completed. A driveway permit application has been submitted for review and approval. The Planning Department recommends approval of the Dickun Subdivision contingent upon the following: Adding a note to the Plan delineating all utilities; update Washington Township Planning Commission to read Planning Department; receipt of an approved Sewage Facilities Planning Module from the PA DEP; any future house must be connected to the MAWT public sewer system, and all applicable fees must be paid to MAWT. The lateral connection must be installed per the specifications of the MAWT and inspected by the MAWT; any existing wye connection would need verified by the MAWT; no comments were received from the Westmoreland County Planning Department's review.

Olszewski added that he spoke with the Public Works director and the driveway permit has been applied for and approved for the new driveway on Meadow Highlands Drive.

Dave Housley with Harshman CE Group LLC, stated that they have addressed all the comments and the Sewage Facilities Planning Module was submitted today. Matt stated that he does not see any wye locations in the sanitary sewer easement and asked how those will be found. Dave replied that his father was the original surveyor for the Chapeldale Estates Plan and will be reviewing his drawing for those locations and will provide that information. Mark Dickun stated that during construction of the sewer line two by fours were buried at each wye location just under the surface and will take a little bit of digging to find the wyes.

Engineer Stephens added that the surveyor's seal and signature need to be on the final Plan when it is submitted to the Township for signature.

Hearing no further questions, Olszewski motioned, and Thornton gave the second to approve the Dickun Subdivision Plan on Camp Nancy Road, Tax Map #63-07-14-0-001, contingent on the following: Adding a note to the Plan delineating all utilities; correct the title from the Washington Township Planning Commission to the Washington Township Planning Department; receipt of an approved Sewage Facilities Planning Module from the PA DEP; and future house must be connected to the MAWT's public sewer system with all lateral connections installed to the specifications of the MAWT and inspected by the MAWT; all applicable tapping fees must be paid to the MAWT; and any exiting wye connections need to be verified by the MAWT. All voted in favor.

Unfinished Business

There was no unfinished business.

Public Comment

John Doyle questioned what Ordinance 179 was for. Thornton stated that it establishes an annual licensing fee and per game fee as well as other requirements to regulate skill games in our Township as other municipalities have in the surrounding area.

Jim Emberg from Bowman Lane, expressed his concern that the organizers for the Shamrock Run are not notifying the residents on Bowman Lane that the main road will be closed like the organizers for the Turkey Trot. He was just made aware of the road closing this week. The Shamrock Run organizers finally put notifications in their mailboxes today. Olszewski stated that if they continue to have this run, they will emphasize to them next year to put notifications out sooner. Olszewski added that this race is not as large as the Turkey Trot and the road should only be closed for about an hour. Thornton added that if notifications are not part of PennDOT's road closure permit, the Board will add the requirement to future approvals.

John Turack with the Washington Township/Bell Lions, announced that there will be a youth fly-fishing class in Kunkle Park on Saturday, April 25th, co-sponsored by Washington Township/Bell Lions and the Tri-County Trout Club and requested the use of a pavilion that day for the event. The fishing for kids only

area will start April 4th through May 31st. Trout stocking of the creek will be completed twice this year. The first stocking will be on March 28th around 7am with trout from the Blackleggs Trout Nursery and then again on April 23rd in the evening by the Arrowhead Trout Nursery. Volunteers are needed for both events.

Turack also announced that the Washington Township/Bell Lions will be having a Highway Clean-up on March 21st. Please see him after the meeting to volunteer.

Hearing no further comments, Thornton motioned and Olszewski gave the second to adjourn. All voted in favor. The meeting was adjourned at 7:32 p.m.

Westmoreland County, Pennsylvania

TOWNSHIP ENGINEER'S REPORT

Board of Supervisors Meeting: April 9, 2026

CURRENT ENGINEERING ITEMS:

1. Municipal Separate Storm Sewer System (MS4) National Pollution Discharge Elimination System (NPDES) Individual Permit:
 - a. BEI submitted the Renewal Application to PA DEP on March 12, 2024. PA DEP issued the Permit on July 29, 2025.
 - b. MS4 Pollution Reduction Plan (PRP) Amendment for the Beaver Run Watershed:
 - i. Proposed MS4 PRP BMP projects:
 1. Improve existing stormwater pond at the maintenance garage.
 2. Streambank Restoration Project
 - ii. **Status: Final PRP Amendment submitted to PA DEP on March 16, 2026.**
2. Kishmo Land Development Plan Application:
 - a. BEI completed a land development review and issued review comments via letters to the Applicant dated January 9, February 19, and June 6, 2024.
 - b. The application was granted Final Approval with conditions at the Board's meeting on June 13, 2024.
 - c. The Applicant resubmitted drawings on January 29, 2026. BEI reviewed the documents and issued a final comment letter on February 9, 2026.
 - d. **The application was re-approved, with conditions, at the Board's meeting on February 12, 2026.**
3. Rino Excavation Site Review
 - a. BEI completed a land development/stormwater review and issued review comments via letter to the Applicant dated February 25, 2026.
 - b. Revisions were submitted by the Applicant on March 6, 2026.
 - c. **Second review letter issued by BEI on March 9, 2026.**
4. Rhino Self Storage Expansion Land Development
 - a. BEI was requested to review the Soil Erosion and Sedimentation Control Plan for the project site. **The submitted E&S Plan appears to be adequate.**
 - b. The project does not propose an increase in impervious surfaces greater than 5,000 square feet, therefore a PCSM Plan is not required.
